# Introduction

Emirates Panel Manufacture LLC (hereafter referred to as EPM) is a long standing and respected manufacturer, specializing in various grades of Aluminium Composite Panels, Polycarbonate Solid Sheets and Sun Sheets, certified with ISO 9001 :2015 certification for complying with the International Quality Standards and performing Quality Management System, designed to ensure that all products and services provided by EPM comply, as a minimum, with the specifications of our clients.

Having had a prominent presence in the UAE since the company's establishment back in 2017, our commitment to continued innovation, high quality standards and excellence in service has resulted in long term, mutually beneficial relationships with our ever-growing database of customers and suppliers alike.

With an industrial presence in countries spanning across the Middle East, Europe, Asia and Africa, EPM has a balanced geographic diversity within all the key composite and polycarbonate markets, both in developing and developed countries.

Through this association, EPM has an access to world-class research and development, best practice processes, aggressive procurement contracts and international market leverage to ensure the company remains at the cutting edge of the international composite and polycarbonate industries.

## Vision:

To add value to all our stakeholders through our market leadership position in the UAE by manufacturing quality material products safely, being an employer and supplier of choice, while striving to be among one of the lowest-cost composite and polycarbonate manufacturers in the world.

## Mission:

EPM will build on this vision as being an industry leader in quality, safety, ethics and education by:

- Creating long-term relationships with our customers by consistently exceeding their expectations
- Educating our workforce enabling them to complete their work tasks in the highest quality manner utilizing proven state-of-the-art technology
- Being a fair employer as well as a career and skills developer
- Producing innovative high-quality materials for our customers on time
- Strategically expanding our operations while realizing long-term profitability

## STRUCTURAL COMPOSITION

## BENEFITS & FEATURES

**Greater Impact Resistance**

The core comprises a viscoelastic high molecular resin material preventing cracking or breaking, yet comes with exceptional high stiffness and impact resistance properties.

**Weather Durability**

Panels are coated with Fluorocarbon (PVDF) resin that is able to withstand extreme weather conditions and minimizes the possibility of acid alkali and salt-spray corrosion. Unaffected by radical changes in temperature and long term exposure of ultraviolet rays, providing up to 25 years without signs of colour fading.

**Easy to maintain and clean**

Having resilient coating properties, the panels perform well in extreme atmospheric conditions - polluted or not. It is however imperative panels are maintained in strict accordance with EPM's O&M cleaning guidelines and only neutral cleansers are applied to the surface.

**Insulating and Sound Proofing**

ACP maximizes the effect of insulation and sound proofing as the composition of the panel does not allow heat or sound to penetrate through the material due to its core, unlike steel, solid aluminium, tiles and other similar materials.

**Smooth coating and Various color**

One of the most unique physical properties of ACP is that it is flat, smooth and has an even surface. Creating a building's aesthetic look and feel is achieved from EPM's various and distinctive colour range that can be customized to suit requirements.

**Economical and Ease of Installation**

EPM panels is an alternative cladding system offering respectable acoustic and U-value features at reduced costs compared to other facade solutions. Replacement costs are also more competitive considering the systems design.

## MECHANICAL & MANUAL PROCESSING

## SPECIFICATION

<b>Width</b>	1000mm, 1250mm, 1500mm, and up to 1590mm
<b>Available Panel Thickness</b>	3mm, 4mm, 5mm, 6mm
<b>Available Skin Thickness</b>	0.5mm, 0.4mm, 0.3mm
<b>Available Length</b>	2440mm, 3200mm, 3600mm, and upto 6000mm
<b>Weight</b>	3mm=4.5kg/m <sup>2</sup> : 4mm=5.5kg/m <sup>2</sup> : 6mm=7.3kg/m <sup>2</sup> (Polyethylene Core) 3mm=5.8kg/m <sup>2</sup> : 4mm=7.6kg/m <sup>2</sup> : 6mm=10kg/m <sup>2</sup> (Modified Mineral Core)
<b>Coating</b>	Kynar 500 FSF PVDF Metallic and Solid & Polyester Matte and High Gloss
<b>Exterior Face of Bottom Skin</b>	PE
<b>Core</b>	Polyethylene, Type LDPE
<b>Fire Retardant Core</b>	Modified Mineral & Linear Low Density Polyethylene
<b>Colours</b>	Standard RAL Colours or Custom Colours
<b>Special Colours</b>	As per Request
<b>Customized Requirement</b>	Available

## TECHNICAL SPECIFICATIONS

Physical Properties		Mechanical Properties	
Test Item	Test Value	Test Item	Test Value
Coating Thickness	>25µm	Impact Resistance	50 kg/cm. no cracking
